THE FRENCH IN ANNAM. To the Editor of the "CHINA MAIL."

CIR,—The recent news respecting the stations of some of the French ships of war around Tonquin in the first week of April has been inserted in the papers. Since then this has passed as a rumour, there being no known authority for the truth of it. The news which strikes us with astonishof April, invaded the metropolis of Tonquin and got possession of it. It seems to have been the fact that the French General at Saigon and the French Ambassador at Hue sent a despatch to Annam stating that the ships of war lying around were in tended for driving away the Black Flags in order to protect the Western Merchants in carrying on their trade between Kongko river and Yuman without any disturbance, and that no interference with the locality

tf (of Annam) would be made. When the French Naval Officers had their ships of war lying in the harbour they were welcomed and entertained by the Civil Officers of Tonquin, and the French crews lodged on the mainland for more than 20 days, during which period neither of the parties had any difference with the other. The French, however, taking the advantage of the incapability of the native officers to make any preparations for action, suddenly invaded Tonquin and took it. The death of the Governor Wong and the Vice-Admiral Lai resulted. The suddenness of the invasion of Tonquin has been quite unreasonable. Tracing back the relations between the French and Annam we find that in the year 1862, the French, along purpose of receiving the Report of the with their consorts the Spaniands, invaded the three provinces in Saigon. The war continued for three years, and at last the three provinces were yielded to the French by the Annamese on a trenty of peace being made. Peace continued for some time, after which the French tried to possess the other three interior provinces of Saigon, but the Annameso refused to accede to this arrangement. In consequence of this refusal, in 1874, the French had many ships of war around Tonquin and attacked several places, capturing and ill-using many of the native officers. In a battle, however, the French Commander-in-chief was slain. Afterwards a Treaty was made between the French and Annamese Governments that THE Ordinary Half-Yearly MEETING the places which had been taken by the French should be restored to Annam; that of SHAREHOLDERS will be Held at the Honokong Hotel on FRIDAY, the 28th Instant, at 4 o'Clock in the Afternoon,

the provinces of Saigon be given up by Annam to the French to be governed by them; that hostilities should cease between both Governments for ever, and that Mercantile pursuits should be carried on. Now the question arises,-For what reason did the French invade Tonquin this time Do the French mean that Annam could not keep up the Treaty on account of its inability to prevent interference with the French merchants by the Black Flog.

Enquiries having been made of merchants, the facts obtained from them seem to show that the Black Flag had been under the protection of Annam before the Treaty was made in regard to commercial pursuits. The Annamese Government had permitted the Black Flag to station at Po Shing for keeping out any plundering rebels. In the troubles of the rebellion, Admiral Fung of the Chinese Government led an army over to exterminate the rebels, and during that time the Black Flag were also very auxious to lond a hand in driving out the robels. The reason why the Annamese Government has not exercised its authority to keep the Black Flag out of the place is because it has been found that the place is situated far out and cannot be left a day, inguarded. Since the Treaty regarding the commercial pursuits was made, the number of vessels passing out and into the harbour of Po Shing has been enormous. The annual amount of duty is very great. From this it may be seen that no interference had been offered to the French merchants by the Black Flag. If the French had reasoned that the Black Flag had slain the French Commander-in-chief and that consequently, the Government must insist on the Black Flag being driven away. it is an absurdity; for European nations would also deem such a thing sufficient reason for initiating hostile action. If the French were going to create a disturbance for that reason, then the hostility would be too bitter to cease. With reference to the inability of the French merchants to get commerce introduced into Yunnan, no Treaty has been made by the Chinese Government concerning that matter. Moreover there is great danger to jy11 steamers sailing along the Kongko river. lowing to the swift currents and the amount of deposits in the river. This suggestion has been made by the Committee of the A T the Request of Messrs. N. M. French department. The Annamese Go-A KHAMISA & Co., I hereby give vernment has had nothing to do with these obstacles. No one can see the reason why Notice that I have WITHDRAWN from the Possession advertised by me, of their the French Government should have invaded Tonquin and taken it. From this

> is unfaithful to all the other nations on the Now Tonquin to Annam is like the right arm to the body, and Tonquin to China is like an onter wall to the house. If the right arm were hurt the body would suffer, and if the outer wall were thin the house could be looked into. If the Annamese Government cannot secure Tonquin how can it be a dependency to China, and if the Chinese Government cannot devise means to help Annam how can it secure its own house and make its outer wall fast. If the Annamese Government complains with reason and the Chinese Government argues with reason, let us ask what would be the answer from the French Government? AN OLD INHABITANT OF HANOI.

may be seen that the French Government

As the rights con- China a far more seriou aconcern than nected with property are comparatively vague and ill-defined, it is but natural that what floating capital there is does not run much in the direction of investments in land or by means of landed securities. Larger portions of such capital are invested in Government farms and monopolies, in banks which undertake financial operations or collection of revenue on behalf of local authorities, in pawnshops which lend money on pledges at a rate of interest fixed by Government, and in the various branches of trade and industry. The inborn business capacities of the Chinese, and their marvellous co-operative the Bill for the repression of crime in Ireinstincts, led to the amployment of such fluating capital on the basis of partnership and joint-stock associations at a time when our nucestors were still the 13th July, with Mails to and squarting in the bush. Business men, also, find it affording useful information or help, to invest surplus funds of their own business on the basis of dormant partnership in parallel or competing shops or firms. Persons who thus invest their savings frequently also atrange, when the amount at stake is large, to get a trusty relative employed in the business, in which they are dormant partners, so that he, whilst earning his own wages as servant, salesman or accountant, may keep the dormant partner informed as to the stability or solvency of the concern, or check the correctness of the annual dividend allotted. Another precoution taken by such small investors consists in this, that they generally select for their investments business concerns the responsible partners of which belong to families or clans well known and accessible to the investor, so that, in cases of fraud, the latter may fall back for compensation on the families or clans concerned. On the other hand, persons so investing their money in any legitimate

business undertaking are not held responsible by Chinese commercial law for liabilities incurred by the firm to which they lend their funds, nor are they known to outsiders or held responsible by the law in case of insolvency Transfer Books of China Traders' Ins. except merely to the extent of their Co., Ltd., closed from this date to 31st funds actually invested, for the recovery of which they have a right to sue the actual partners. #### THE CHINA REVIEW. PUBLISHED BI-MONTHLY. TENTH YEAR.

caused by the discontinuance of "Notes and Queries on China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of the "Far East" and about which every intelligent person con-nected with China or Japan is desirous of a acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a careful and concise record Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued from and diffusing among students knowledge on obscure points.

### OPINIONS OF THE PRESS.

"All our learned societies should sub scribe to this scholarly and enterprising Review."-Northern Christian Advocate (U.S.) "The China Review \* \* \* \* has an excellent table of contents."-Celestial Empire. "The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."-Celestial Empire. This number contains several articles

of interest and value."-North-China Herald "The present number of this periodical, \* \* \* \* opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation it enjoys at present among the commercial communities of China, we hail the innovation as likely to recommend the Review to the notice of those who take an interest in few matters beyond mercantile pursuits."-North-China Herald.

"The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. Motoorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries

are as usual very interesting."—North-China

A substantial and reliable Review which

Daily News.

all students of China and the Chinese would do well to patronise."-Chrysanthemum "The November-December number of the China Review contains less variety than Four Coolies, usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessar be of great importance in the eyes of all missionaries. Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of an additional payment of 5 cents. these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete

the number."—H.K. Daily Press.

Trubper's Oriental Record contains the following notice of the China Review :-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary, grace. Beside nectoes of new books relating to China and One Hour, ...... 5 the East, which will be a useful feature of Half Hour, ..... 3

the Review, if carried out with punctuality

and detail, we are glad to notice that ,, Notes" and "Queries" are destined to

find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoks a similar

degree of literary zeal to that which was

displayed during the lifetime of its prede-ceasor in the field, and that the China Review

may receive the support necessary to insure

te continuance.
